

Script for Call to your Representative on HB1467 or Senator on SB230

Good morning/afternoon, I am _____(your name)_____, a constituent, and I live at _____(your address)_____. I am calling to request a meeting with _____ to discuss HB1467 (or SB230), the Alternative Energy Portfolio Standard bill that will renew and expand the AEPS, AND enable Community Solar across Pennsylvania.

Pennsylvania has fallen way behind in the transition to a clean energy economy, and we are now at risk of volatile and rising prices, not to mention more extreme weather events like the ones we've been experiencing. I'd like to talk to _____ about the need for this legislation and ask him/her to cosponsor HB1467/SB230..

Would he/she have time for a brief meeting in the next week ?

If your Representative or Senator has already cosponsored these bills, it would be great to send them an email thanking them for their leadership on these bills and their support of a clean energy future.
